CAREER OBJECTIVE

MERN stack developer with hands-on experience in ReactJS, Node.js, and MongoDB. Eager to contribute to innovative teams by building scalable, high-performance web applications that solve real-world problems. Committed to continuous learning and passionate about creating impactful user experiences.

PROJECTS

- **UDEMY WEBSITE CLONE** SEP 2024
Built With: HTML5, CSS
 - Designed and developed a static front-end clone of Udemy using only HTML and CSS, accurately replicating the layout and design.
 - Recreated key UI components such as the navbar, banner, course cards, and footer, ensuring visual similarity to the original site.
 - Applied responsive design techniques using media queries and flexible layouts to maintain usability across various devices.
- **TRIPADVISOR WEBSITE CLONE** OCT 2024
Built With: HTML5, Tailwind css
 - Built a responsive TripAdvisor clone frontend with HTML and Tailwind CSS, featuring hotel listings, reviews, and ratings.
 - Created UI components like search bars, filters, and review cards with user ratings.
 - Used Tailwind CSS to ensure consistent design and smooth experience across devices.
- **NOSTRA E-COMMERCE WEBSITE** FEB 2025
Built With: HTML5, CSS, JS
 - Developed Nostra, a responsive dress shopping website using HTML, CSS, and JavaScript.
 - Created interactive product listings and category filters for an easy shopping experience.
 - Ensured responsive design for smooth browsing across all devices.
- **RAPID RESCUE BOOKING WEBSITE** 2025- ON GOING
Built With: ReactJS, Tailwindcss, MongoDB
 - Developed an ambulance booking website with React and Tailwind CSS, featuring map-based tracking of ambulances and nearby hospitals.
 - Implemented listings for different types of ambulances to help users choose based on their needs.
 - Designed a responsive and intuitive interface for seamless booking and quick access to emergency services.
